

Galeana – Morelos State

The sisters of the Church sell corn soup every Saturday night to fund their building program.

This arch is hand carved and will serve as the entrance into their new sanctuary.

- Galeana:** (CD ROM picture key 4) Located in the state of Morelos about fifty miles north of Chilpancingo. The older building is clean, neat and well maintained. The new sanctuary under construction has a architecturally pleasing front with a large archway supported by columns with stone carvings. Most of the exterior is complete but the interior needs to be completed. The sisters of the church have raised most of the funds for construction by selling corn soup every Saturday night. The biggest need is construction assistance. Team housing will be in church members homes and a nearby hotel. There is a large water sports lake nearby that could offer additional appeal to youth teams. Taxco and Cuernavaca are located within driving distance.
