**DESTINATION:
BELIZE**

Dental-Medical Team

July 17-26, 2009

Cost: \$2200

UNITED METHODIST VOLUNTEERS IN MISSION

christian love in action!

There is very little health or dental insurance in Belize. What services that are available are delivered on a cash basis at private clinics or at government hospitals.

We seek to offer services to those who cannot afford to pay for them in Southern Belize. We have built a clinic in Forrest Home, Belize, near Punta Gorda where a dentist or doctor can walk in and start to work. There are two completely equipped dental rooms, two medical exam rooms, and one hygiene room.

Belize is a friendly, gracious and safe place to visit. It is an English-speaking country that is bordered by Mexico, Guatemala, and the Caribbean Sea. With its cool sea breeze and friendly people, Punta Gorda is a pleasant, interesting town.

The trip will be 10 days, leaving on Friday and returning on Sunday. This provides 5 working days and several days of sightseeing, snorkeling, fishing, shopping, diving or just walking on the beach. We will stay in a comfortable motel in Punta Gorda with AC, hot water, and cable. We will have meals in the local restaurants and traditional Belizean cuisine is served for lunch at the worksite.

In a world of increasing regulations and diminishing satisfaction with the practice of medicine and dentistry, this is a chance to restore the vigor, delight, and sense of worth and accomplishment that can ebb over the years.

Come join us as we work and play in beautiful Belize!
