

Project:

Barra das Garças Missionary Field

Overview:

This mission field is located near the border of the states of Mato Grosso do Sul and Goiás. The city of Barra dos Garças is located in a beautiful location between the rivers Aragarças e Barra dos Garças that divide the states. This is an area that is developing and the city of Barra dos Garças has approximately fifty thousand residents.

Project Summary

This project involves the construction of the church. The Conference has purchased land for the church and currently the congregation meets in what was the parsonage. There is a long-term need of building a parsonage since the pastor currently lives in a rented home.

Project Needs

This is primarily a construction project although relationship with the community will be important. The cost of this project is approximately \$18,000 and will take place in various stages. There is not the expectation that a single VIM team could finance or develop the entire project.

Logistics

International travel to this location would be via Sao Paulo with air transport having its final destination in Goiania. From this city, travel would be by bus covering a distance of approximately 220 miles.

Barra dos Garças has a number of good quality hotels where the VIM team could be housed. The region has a number of interesting tourist sites.
